

Examples of Addition

ADDITION.

Example:-1) $38 + 26 = 38 + 22 + 4 = 64$,

Explanation:- Split 26 to $22 + 4$ so that $38 + 22 = 60$,

Example:-2) $57 + 38 = 57 + 33 + 5 = 95$,

Explanation:- Split 38 to $33 + 5$ so that $57 + 33 = 90$,

Example:-3) $76 + 48 = 76 + 24 + 24 = 124$,

Explanation:- Split 48 to $22 + 24$ so that $76 + 24 = 100$,

Example:-4) $183 + 58 = 183 + 17 + 41 = 241$,

Explanation:- Split 58 to $17 + 41$ so that $183 + 17 = 200$,

Example:-5) $357 + 146 = 357 + 143 + 3 = 503$,

Explanation:- Split 146 to $143 + 3$ so that $357 + 143 = 500$,

Example:-6) $286 + 348 + 524 = 286 + 314 + 34 + (16 + 8 + 500) = 1158$,

Explanation:-

Split 348 to $314 + 34$ and $524 = 500 + 16 + 8$ so that $286 + 314 + 500 = 1100$, and $34 + 16 = 50$,

Example:-7) $827 + 529 + 721 = 827 + 529 + 721 = 800 + 1250 + 27 = 2077$,

Explanation:-

As $527 + 721 = 1250$ Split 827 to $800 + 27$ so that $1250 + 800 = 2050$,
